

Team manager

Green Innovation meets performance

Our Project

Formula Electric Belgium is a team of engineering students who build a **Formula-Student racecar** to compete in international competitions. We design and build a brand-new car every year and compete with other teams in multiple worldwide competitions during the summer months. Formula Student is by far the biggest **engineering competition** in the world and continues to grow. From next year on, we will be competing in both the **electrical** and **driverless** competition. You can join the project during one or two years by applying for the **'Postgraduate in Innovation and Entrepreneurship in Engineering'**.

Tasks

A team manager, leads, monitors and supervises the team members to achieve the desired end goals. It is your role to motivate and inspire the team by creating an environment that promotes positive communication, encourages bonding of team members, and demonstrates flexibility. You will therefore also be the communication channel between the team, the university and the coaches and communication with several strategic partners.

Specific functions are, but not limited to, organising team meetings to get the team updated, having the responsibility over the financial planning and solving challenges that arise each day. These challenges will be overcome by the cooperation of the team. Last but not least, legal and organisational documents will pass by you for approval and will then be discussed with team coaches.

Profile

- Strong communication skills
- Creative, out of the box thinker
- Organised
- Intrinsic motivation
- Knowledge of financial systems

Returns

- A unique engineering experience
- Work with the newest technologies and innovative companies
- A summer season packed with competitions all over Europe
- Boosting your soft skills (Public speaking, maintaining professional relationships, ...)
- Work in a team with well over 120 partners
- An experience of a life-time!

Up for the challenge?
