

Head of Business Relations

Green Innovation meets performance

Our Project

Formula Electric Belgium is a team of engineering students who build a **Formula-Student racecar** to compete in international competitions. We design and build a brand-new car every year and compete with other teams in multiple worldwide competitions during the summer months. Formula Student is by far the biggest **engineering competition** in the world and continues to grow. From next year on, we will be competing in both the **electrical** and **driverless** competition. You can join the project during one or two years by applying for the '**Postgraduate in Innovation and Entrepreneurship in Engineering**'.

Tasks

As the head of Business relations you'll oversee the Public Relations and Business Relations departments.

You are responsible for **maintaining current sponsors as well as finding new contacts**. You will go through the entire process from networking to negotiating with companies in a professional manner and concluding contracts. Furthermore, you're also responsible for how the outside world perceives the team. You **ensure the good reputation of the team** to both the general public and the professional world.

Being the head of business relations is an important role. The technical design of the car is negligible if the outside world is not able to see how good it is.

Profile

- Communicative
- Independent and professional
- Outgoing
- Creative out-of-the-box mindset
- Good time management
- Since you will be head of your department, people skills are very important.

Returns

- A unique engineering experience
- Developing your hard- and soft-skills in a company-like environment
- Work with the newest technologies and innovative companies
- Work in a team with a network of well over 120 partners
- A summer season packed with competitions all over Europe
- An experience of a life-time!
