

Management Team Manager

Green innovation meets performance

Our Project

Formula Electric Belgium is a student-based race team that pushes green innovation to performance. We design and build our own electric race car each year to participate in international Formula Student competitions. We are looking for pioneers to challenge the status quo and bring our top-notch electric race car to the next level. As a postgraduate student, you will research, design, and test your systems together with a group of highly motivated students. You will innovate together with your team members and numerous companies to develop our next generation formula student race car.

Function

As the **Team Manager** you play a pivotal role in **leading** and coördinating all aspects of our team's operations. You will oversee team members, **mangage project timelines**, liaise with sponsors and stakeholders and keep track of the budgetting.

You organise team meeting, to keep the team updated and **working efficiently**. Furthermore you have the final responsibility for the **financial planning** of the team, and oversee the logistics and coördination for the different competitions.

Profile

- Good at planning
- Organised
- Strong communicator

Returns

- A unique engineering experience
- Developing your hard- and soft-skills in a company-like environment
- Work with the newest technologies and innovative companies
- Work in a team with a network of well over 120 partners
- A summer season packed with competitions all over Europe
- An experience of a life-time!

Up for the challenge?
